Thursday 9th February 2017

Dear Parent/Guardian,

Please note that a couple of cases of head lice have recently been reported in school. They are a recurring problem and anyone can get head lice... mainly through head to head contact but also from sharing brushes, hats and other personal items.

Please do your part to prevent head lice spreading by checking your child's hair. **We would recommend that your child's hair is checked regularly (at least once a week), and on a regular basis thereafter.** Please also watch for signs of head lice as they are much easier to treat if caught early. If head lice or eggs are detected, treatment should be given to the whole family **before** your child returns to school. A second treatment should also be given 10 days later.

We would ask that any cases of head lice are reported to the school office to allow us to monitor cases and prevent head lice spreading.

A leaflet is available from Reception and further information can be obtained from your local GP or pharmacist.

Yours sincerely,

Mr P Thompson
Headteacher
