Dear Mrs Morgan

I have written to you today to Inform you about what this world has become and how you can take action on how to Save our Planet and Stop Global warming and climate change!

We see on the news and around us that the battle to the climate is really happening and will say things on how we can help the situation that the Planet is currently staying straight in the face. Here are the things that we could do to help: we could start by doing carless. Next is turning of lights; Having shorter showers and many more.

### Animals

As animals can not do much for help, They rely on humans to do it for them. As a result Humans have took over and now many animals are coming extinct.

As a leader you have the Power to use your Public voice to talk on this very Subject. the upcoming election I am certain you and other leaders will Push the climate of Problem onto a conclusion on how to help. I am eager for a reply on this.
