Monday 11th March 2024

Dear Mrs Morgan,

I wish to express my concerns with regards to the climate crisis. Climate change is one of the most dangerous problems in our global community and animals are dying by second.

269 species are dying per day and that is not good. We have got to help the animals. Polar bears are dying as ice sheets are melting at an alarming rate. Deforestation is a utterlly deeply concerning factor of climate change. 17% of the Amazon Rainforest. Did you know that in a decat least the E arth has risen in heat by one percent even though it dosnt sound like a lot it is a lot.

I hope you can do something about this urgent problem: Time is ticking.

Your Sincerely
